Education

Bachelor of Computer Science *(Avg. 81%),* University of British Columbia, *Vancouver* Sep 2025 – Exp. May 2028

Computer Studies (*Avg. 84%),* Langara College, *Vancouver* Sep 2023 – Apr 2025

Bachelor of Engineering, Architecture (*Avg. 85%*), Xi'an University of Technology, *China* Aug 2013 – Jul 2018

Technical Skills

Languages: Java, C/C++, C#, Python, JavaScript, TypeScript, SQL, Swift
Web & Databases: HTML, CSS, PHP, Node.js, Express.js, REST APIs, MySQL, Microsoft SQL Server
Libraries & Testing: pandas, NumPy, scikit-learn, JUnit, Mocha, Chai
Tools & Design: Git, Docker, Linux, Figma, Photoshop
Relevant Coursework: Software Development, Machine Learning, Natural Language Processing, Database Systems

Technical Projects

InsightUBC (Academic) | *TypeScript, Node.js, Express.js, Mocha, Chai, Supertest, OpenAPI* Sep 2026 – Present

- Extended REST APIs with campus filtering and grouped analytics, including five aggregation operations and decimal.js calculations.
- Refactored shared filtering logic and added an IN operator for course and room queries.
- Wrote API integration and regression tests with Mocha and Chai; updated OpenAPI documentation for new features and validation rules.

DisplayTidy (Personal) | *Swift, SwiftUI, AppKit, JSON* Sep 2026 – Present

- Building a macOS menu bar app in Swift and SwiftUI with a draggable display preview, alignment guides, and animated snapping.
- Integrated CoreGraphics APIs to read and update display positions, reject overlapping or disconnected layouts, and save alignment settings locally using Codable and JSON.

Team Workflow Scheduler (Personal) | *Java, Sockets, Multithreading, JUnit, JavaFX* Feb – Aug 2026

- Developed a JavaFX task manager with a Java TCP server for task creation, updates, deletion, and listing.
- Supported concurrent clients with per-connection threads, synchronized task state, and observer notifications.
- Added priorities, deadlines, overdue detection, and JSON persistence; tested parsing, service logic, storage, and notifications with JUnit.

DealerDesk (Academic) | *Java, JUnit, Java Swing, JSON* Sep – Dec 2025

- Built a modular Java application with a tabbed Swing interface to manage inventory, sales, and customer records.
- Separated business logic into dedicated classes and tested it with JUnit.

BC Travel Guide (Personal) | *HTML5, CSS, JavaScript, PHP, MySQL* Oct 2023 – Jun 2026

- Built a responsive travel website with HTML, CSS, and JavaScript using Flexbox and media queries.
- Added PHP/MySQL subscriptions and a subscriber list page, hosted locally with XAMPP.

Work Experience

Assistant Architect*,* Hong Kong Huayi Design Consultants (S.Z.) LTD, *Shenzhen, China* Jul 2018 – Apr 2020

- Created 3D models and architectural visualizations using SketchUp, Rhino, V-Ray, and Lumion.
- Resolved design conflicts with consultants and delivered construction drawings by project deadlines.
- Reduced visualization production time by 30% by optimizing workflows in Lumion and Photoshop.

Assistant Architect Intern*,* Hong Kong Huayi Design Consultants (S.Z.) LTD, *Shenzhen, China* Jul – Oct 2017

- Prepared drawings and diagrams using AutoCAD and Adobe Creative Suite; supported site inspections and design revisions.
