Technical Skills

Languages: Java, C/C++, C#, Python, JavaScript/Typescript, SQL
Web & Databases: HTML, CSS, PHP, MySQL, Microsoft SQL Server
Tools & Frameworks: Linux, Docker, JUnit, Java Swing, JavaFX, Git
Design Tools: Figma, Photoshop, Illustrator, InDesign, AutoCAD

Technical Projects

Team Workflow Scheduler (Personal) | *Java, Sockets, Multithreading, JUnit* Feb – Aug 2026

- Built a Java client-server task manager with a JavaFX interface and a line-based TCP protocol for creating, updating, deleting, and listing tasks.
- Handled concurrent clients with a thread-per-connection server, synchronized access to shared task state, and an observer-based notification channel.
- Added task priorities, due dates, overdue detection, and JSON persistence; wrote JUnit tests for protocol parsing, service logic, persistence, and socket notifications.

Car Dealership Manager (Academic) | *Java, JUnit, Java Swing, JSON* Sept – Dec 2025

- Built a modular Java desktop application for managing inventory, sales, customer, and directory records through separate business logic classes.
- Created a tabbed Java Swing interface for viewing and updating dealership records through event-driven controls.
- Applied OOP/OOD principles and wrote JUnit tests for core business logic; used Git for version control.

BC Travel Guide (Academic) | *HTML5, CSS, JavaScript, PHP, MySQL* Oct 2023 – Apr 2024

- Built a responsive, multi-page travel guide with HTML, CSS, and JavaScript, using Flexbox and media-query breakpoints at 450, 600, and 900 px.
- Added a PHP/MySQL subscription system and an page for viewing subscribers, running locally through XAMPP.

Grid Pursuit: Cheese (Academic) | *JavaScript, HTML5, CSS* Oct – Dec 2023

- Built a browser game with JavaScript and HTML Canvas, using 2D arrays for walls, enemies, and collision detection.
- Implemented randomized enemy movement with boundary and overlap checks. Added scoring, traps, and Game Over state handling through an event-driven architecture.

Work Experience

Assistant Architect, Hong Kong Huayi Design Consultants (S.Z.) LTD, *Shenzhen, China* July 2018 – Apr 2020

- Created 3D architectural models and visualizations in SketchUp, Rhino, V-Ray, and Lumion to communicate design intent.
- Worked with consultants to resolve design conflicts, align drawings with construction requirements, and deliver document packages by project deadlines.
- Optimized rendering workflow using Lumion and Photoshop, reducing visualization production time by 30% across multiple projects.

Assistant Architect Intern, Hong Kong Huayi Design Consultants (S.Z.) LTD, *Shenzhen, China* July – Oct 2017

- Prepared technical drawings and project diagrams with AutoCAD and Adobe Creative Suite; joined site inspections, gathered feasibility information, and supported design revisions under the supervision of four project architects.

Education

Bachelor of Computer Science *(Avg. 81%),* University of British Columbia, *Vancouver* Sept 2025 – Exp. May 2028

Computer Studies (*Avg. 84%),* Langara College, *Vancouver* Sept 2023 – Apr 2025

Bachelor of Engineering, Architecture (*Avg. 85%*), Xi'an University of Technology, *China* Aug 2013 – July 2018
